Sire: Peruvian Hemingway – Dam: MSA Santino's Sarafi

Riva Ridge is a Full Peruvian, 1/4 Accoyo Hemi-Accoyo male. His sire is the Big Daddy himself, Peruvian Hemingway as his sire, and his grandsire is the legendary Peruvian Dracula. He is white, with very good conformation and presence. His fiber is very dense and crimped. Even his neck is packed with fiber. So, he carries the genetics and fleece qualities of his sire and grandsire. How good is that!

The bottom line is that if you want Hemingway genetics, you need to look to his progeny. We think Riva Ridge has the potential to be a dominant breeding force for years to come, especially when you include the Accoyo genetics of Dracula.
